Preface

A progressive income tax system is a tax system that is designed to reduce the burden of taxes on the income of the poor and the rich, and to reduce the burden of taxes on the income of the rich and the poor. A progressive tax system is a tax system that allows the rich to pay taxes on their income, and the poor to pay taxes on their income. The government has taken steps to reduce the tax burden on the income of the people by 100% in the last 10 years. The government has also taken steps to further simplify the income tax system and reduce the tax burden on the people.

The annual budget for the year 2019-2020 is a budget for the year 2019-2020.

The Income Tax Act, 2023 was amended by the Income Tax Ordinance, 2024.

The BID has been publishing the 'Income Tax' in the National Revenue Agency for the past few years. The government

This agreement covers the completion of income tax return forms, the method of filing income tax returns, taxation and The process of calculating the income tax and the tax return is done in a very simple and understandable manner. After that, various complex issues related to taxation are explained in simple and understandable language. For the taxpayers who have to file their income tax returns, various real-life examples and questions are used in this book. The implementation of these recommendations will ensure that the public sector is able to achieve its full potential in terms of revenue generation and revenue generation, and that the government will continue to increase its revenue generation and revenue generation. We are committed to building a strong, prosperous and inclusive Bengal. A new annual campaign will be organized to actively engage the tax authorities and a comprehensive campaign will be launched to promote tax compliance.

It is learnt that the Basant Bank has received a good deal of support from the bankers in the 2017-2018 fiscal year.

The government has issued a circular to the effect that the income and tax returns of the company will be calculated on the following dates:

Example-1

Mr. Ataur Rahman is a government comrade in Bangladesh Satibalday Comrade and his The Doctors (Pay and Allowances) Order, 2015 is applicable for the purpose of payment of Fadl Pay and Allowances. S.R.O. No. 225-Act/Income-7/2023, Date: 13 July 2023. The notice of the same will be issued.

Let's say, the following is the amount of the annual salary for the fiscal year ending on June 30, 2024:

Monthsak Main Book	56,500
Monthsak Tikatsa Allowance	1,500
Festival	113,000
Allowance Bangla New Year Allowance	11,300

The government house is located there. The future transfer is deposited at the rate of 14,000 taka per month. The amount received from the account is shown on the receipt of the deposit. The future transfer plus interest amount is 1,08,500 taka up to 30 June 2024. Welfare transfer and insurance The monthly price of crude oil for the converted rice is 150 and 100 taka respectively. Also, a small bank account holder deposits a monthly amount of 5,000 taka in the pension scheme.

Example-4

Let us say that Tamaz Shaila Atajjar owns a three-storey residential building in Gulshan area of Dhaka. Tamaz and his wife live in the ground floor of the building. The 2nd and 3rd floors are rented out for residential use at a monthly rent of Tk 60,000 per month for the month of July. The last two tenants in the same period pay Tk 8,00,000 each. Therefore, the total rent is Tk 2,40,000 ($20,000 \times 12$). Also, each tenant pays Tk 10,00,000 as security deposit. Along with the rent, he pays Tk 24,000 as rent, Tk 900 as interest and Tk 30,000 as interest on the house construction loan. The income from his current house property will be calculated as follows:

Rental price = (Monthly rent $60,000 \times 12 \times 2$ months) =	1,440,000
negotiable price	
1. Maintenance expenses (25% of rent)	360,000
2. Property tax (24,000 \times $\frac{2}{3}$)	16,000

*1/3 of the property is owned and 2/3 of the rent is rented

Net income after deducting house property = 10,43,400

(The Indian government has taken the initiative to adopt the new system of education.)

(8,00,000×2) Tk = 16,00,000 Tk. Therefore, the total value of the investment is 20,000 Tk, and the total value of the investment is 60,000 Tk.

So, the annual income of the farmer is (20,000×12×2) = 4,80,000 kg. The total income, calculated by dividing the income by (16,00,000-4,80,000) kg = 11,20,000 kg.

The total number of students admitted to the school is (10,00,000×2) = 20,00,000.

The above-mentioned approved funds and expenses are (11,20,000 + 20,00,000) Tk, 31,20,000

B Tk of which are the total assets, liabilities and expenses of the company.

- (a) The royalties, licenses, and other intangible assets for the purpose of
The user's right to produce the modem is not subject to additional income;
(i) The government is not interested in the matter;
(c) Other than mineral deposits and hydrocarbons and goodwill, the unearned income of the individual
is generated by the individual in the form of income;
(d) Any other payment made under any other payment made under section 30, except as
otherwise provided for in this Act.
The source is income.

Income tax is levied on income from other sources, but the gross income received is not subject to taxation,
and the net income is not subject to taxation.

Let's say, Tamizha Man Yamuna Vritta Tedaya source tax is 10,000 taka and after deducting the tax, it becomes 90,000 taka.

A seller of Rs. 100,000. Then the income of other sources of income of Jamuna will be $(90,000 + 10,000) = 1,00,000$ taka. The income tax paid on the amount of the loan will be declared as final tax on the amount of the loan which will be deducted from the income tax.

For example, if the total income of a taxpayer from all sources is 55,000 taka, then the taxpayer will have to pay income tax of $55,000 \text{ taka} - 10,000 \text{ taka} = 45,000$ taka.

Example-8

Let us assume that Mr. Batafadayal Ahmad has a 1/4 share in a company. For the year ended 30th June 2024, the profit before tax is 6,00,000 taka and the tax liability is 20,000 taka. That is, the profit after tax on that company is 5,80,000 taka. Mr. Ahmad is entitled to a share of the profit on the basis of the share in the company.

1,45,000 taka. Moreover, the net income of his household property is 3,85,000 taka.

Mr. Ahmad's total income for the year 2024-2025 will be $(3,85,000 + 1,45,000) = 5,30,000$ taka.

The income tax rate on total income is as follows:

First 3,50,000 taka points 'zero' rate Next	Zero
1,00,000 taka points 5% Downward 10%	5,000
above 80,000 taka	<u>8,000</u>

Income tax on gross income 13,000

is levied on the income of the taxpayer (taxable income)

The tax rate applicable to the payment of the tax on the amount of the tax payable (proportional amount) is as follows:

$$T = A \times (I/C)$$

$$K = 13,000 \times (1,45,000 / 5,30,000)$$

$$K = 3,557$$

Net payable amount of the loan: $13,000 - 3,557$ taka = 9,443 taka.

Oil 8,00,000 taka. He has paid final tax of 18,000 taka and source tax of 6,000 taka for the year 2023-2024. The last date for his tax return for the year 2024-25 is 30th November 2024. He has not paid the tax in due time. Therefore, for the year 2024-25, Mr. Tejtalak Bevanath has paid the tax on 15th January 2025.

Dr.

Mr. Tejtalak Bevinath Tandu has filed a petition for the Independent Assessment System with an E-wallet of Tk. 11,000 on 15th January 2025.

Here,

(a) The tax payable on the gross income is Tk 35,000. (b) The total of the final tax and the amount of withholding tax: $(18,000 + 6,000) = Tk 24,000$.

1 December 2024 to 15 January 2025 = 1 month and 15 days.

Fadl, the new system will be selected and implemented,

$A = B + (B - C) \times D \times 0.02$, where A =

The amount of the additional amount payable is $(11,440 - 11,000)$

Taka = 440 Taka. This is the maximum amount payable.

(a) Income Tax:

Income tax is levied on income tax payable by the taxpayer on the basis of income tax.
For example, income from bank accounts, bank interest, annual rental income from house
property, income received from the employer, etc., if income tax is levied on the basis of
income tax, it is levied on the basis of income tax. The income tax is levied/collected by the
tax collector/collector. ^{Dr.} study will be conducted with the help of the researchers.

(i) Last thing:

The amount of income tax due will be deducted from the final tax return as per the last tax return date.

Dr.

The final tax return proof will also be submitted to the tax return date.

Example-16:

Let us assume that a person who has not renewed his/her tax returns from 1 July 2023 to 30 June 2024, without any deductions, will be liable for the last tax year 2024-2025.

For the payment of 25,000 taka. Then the last tax return of the taxpayer is the proof of the amount of the tax paid for the year 2024-2025.

Example of gross income calculation and tax calculation

The total income of the taxpayer and the amount of tax payable, except for the natural consequences of the various circumstances, are as follows:

The following is a sample of the most common choices that should be made when calculating:

1. Government orders for calculation of income and tax of comrades:

Mr. Mahrus Hasan Maho is a comedian from Bangladesh. 30 June 2024

Then, the following allowances are paid on the completed income-tax day:

Monthsak Main	26,000
Festival Bobanas 2 ($26,000 \times 2$) Tikatsa	52,000
allowance Tasho	1,500
Auxiliary allowance	500
Bangla New Year allowance	4,400

The Bangladesh Agricultural Bank has a deposit of 3,200 taka per month for future deposits. According to the receipt received from the bank, the interest on the future deposits up to 30 June 2024 is 29,500 taka. The monthly interest on welfare deposits and health insurance deposits is 150 taka and 100 taka respectively.

Dr.

The total income of Mr. Mahrus Hasan Maho for the year 2024-2025 is calculated as follows:

Other income:

Main income ($26,000 \times 12$ months)	312,000
Festival income ($26,000 \times 2$)	<u>52,000</u>
	364,000

* Mr. Mahad's pension, social assistance allowance and Bengali pension for the years ending on or after 30 June 2024 are paid to him by the bank (bank, insurance) and Finance (Remuneration and Allowances) Order, 2015. The provisions of these allowances Therefore, income tax will not be levied.

Therefore, the tax payable on the gross income is 700 taka and the legal allowance is 700 taka. 6,210 taka. In this case, the tax is not due as per the tax law. The tax is payable in full.

The tax is not taxed in the capital. That is, even if the tax payable as per the tax return is negative, the taxpayer's income is above the taxable limit, so the taxpayer's position is between Dhaka North and Dhaka West.

Minimum 5,000 taka in the district area, other 60 district areas

The minimum income tax is 4,000 taka and in areas other than these six divisions, 3,000 taka will be taxed as income tax.

For the same income, if a disabled person or a war veteran with a gross income of 3,64,000 taka, then since the limit of his taxable income is 4,75,000 taka and 5,00,000 taka, then he will not be liable to tax. Similarly, a single person with a gross income of 3,64,000 taka, whose disabled child is a dependent and whose husband does not have the additional limit of tax for the disabled child, will also be liable to tax as his taxable income is 4,50,000 taka.

Taxpayers will not be taxed.
